A Specialist School in Science and Mathematics

January 2012

Headteacher's Message to External Applicants

I am very pleased that you have shown an interest in possibly studying at The Blue Coat School for your Sixth Form (Post 16) education.

The information contained here is about the courses that are offered at Blue Coat, together with information on the Sixth Form experience. We offer a curriculum that includes AS and A2 Levels, together with an Enrichment programme and General Studies.

The choice and combination of subjects may well be determined by your eventual career aspirations, but many students have no clear idea about their future, so that is why the guidance on choosing courses is so important to you.

This guidebook is part of a process, which includes the Information Evening and the Advisory Meeting. All of this is aimed to inform you fully about the expectations and ethos of The Blue Coat School. Please use these opportunities to ask as many questions as you need.

I do need to remind all applicants that not all combination of subjects can be met due to constraints, but the School endeavours to meet all combinations, and will inform students if there are any problems.

If you believe that The Blue Coat School is the right Sixth Form experience for you, I welcome your application and wish you good luck in your future career.

Yours faithfully

D A Silcock
