### A Specialist School in Science and Mathematics

24 May 2011

Dear Parent/Carer

#### Year 11 GCSE Maths Revision Resource

I am writing to advise you of a GCSE Maths revision resource that is available for all Year 11 students. The resource is an assessment tool that gives students access to 10 online tests covering different areas of Maths. These tests are a combination of multiple choice and numerical answer questions and are written by the team who write the GCSE Maths examination papers. The tests are self-marking and model solutions for all questions can be viewed. They are a valuable extra revision tool that can be used at home. All students have access to all 10 tests and can complete each test twice.

Students have accessed this resource in at least one Maths lesson and so are familiar with how it works. The website for this is [www.resultsplusprogress.com/](http://www.resultsplusprogress.com/) and students can login in from this page. Login details were provided to students but if they have lost/forgotten them they are available from the Maths department and a copy of all login details is also held at reception. In addition to a user name and password, a school code is also required. This code is **bcbs**.

I would also like to take this opportunity to remind you that the dates of the Maths GCSE are:

- **Monday 6 June pm** non-calculator paper
- **Friday 10 June am** calculator paper

If you have any questions please do not hesitate to contact me at the school.

Yours sincerely

*K Wilson*

Miss K Wilson  
Head of Mathematics
