20 November 2018

Dear Parent/Carer,

I am writing with regards to Careers, Information, Advice and Guidance (CIAG) provision in Y12. As part of CIAG students are given the opportunity to explore different career paths and next steps. Previously guest speakers have given students insight into specific courses and fields. The next career talk is compulsory for all Y12 students. On Monday 17th December, 1.30pm, ApprentiBuild are running a session on their programme in Shirley Hall.

The ApprentiBuild programme is an enhanced Degree Apprenticeship which provides a link between young professionals, construction firms and universities and provides ongoing professional, technical and wellbeing support to young people. Throughout the duration of the apprenticeship, ApprentiBuild will create a culture and environment so that students become the very best version of them self and make the best positive impact possible to their employer. The ApprentiBuild programme provides a fast track opportunity for future leaders of the construction industry. They are looking for Quantity Surveyors, Architects, Civil Engineers, Construction Manager, Sales & Marketing and Finance. However; they are not just looking for people that always wanted to go in to construction or have already decided that full time university is not for them. ApprentiBuild will challenge some of the myths about the industry and degree apprenticeships and present the opportunities and career paths to all.

Should students feel they need additional information they should visit the ApprentiBuild website: [www.apprentibuild.co.uk](http://www.apprentibuild.co.uk) or alternatively Miss Baker ([j.baker@bluecoatschool.org.uk](mailto:j.baker@bluecoatschool.org.uk)).

Miss Baker
